

Wedding Planning Services

Sweeting & Stiasny

Why use a wedding planner?

Weddings are wonderful experiences, but organising a wedding can rate as one of the most stressful events in a person's life.

This is because of the sheer amount of organisation which goes in to putting a wedding together. There's catering to consider; the logistics of getting people where they are supposed to be when they are supposed to be there; incorporating people's good ideas and excluding the bad ones - without causing offence; deciding on the 'design' of your wedding; the flowers; the insurance; the timetable for the day; parking arrangements... the list is endless. And what is most often the most stressful task of all - the guest list and seating plan!

An event planner's job is to remove as much of this stress as possible from the bridal party and ensure the planning period before a wedding, as well as the day itself, is memorable and enjoyable.

What do Sweeting & Stiasny do?

We design, create and plan. We organise, run and manage. We budget.

Whilst we love being involved from the beginning to the end, we can do everything or just some things, depending on what you need. And that includes helping you organise your stag and hen do's, or the rehearsal dinner the night before the big day.
