

# Staying at Layer Marney Tower

## Glamping 'Posh Camping'

There are six luxurious tented encampments in the grounds of Layer Marney Tower which are suitable for your more outdoor friends and family. Don't be misled by the term "camping," this really is very posh. Your stay will be under the sort of capacious canvas that graced the African plains during the reign of Queen Victoria.

Each encampment has a main tent sleeping up to 6 people in comfortable beds: there is a plumbed in loo; cold running water to the kitchen sink; electricity comes from a battery charged by yourself through a static bicycle. There is room for two additional guests on camp beds in the nearby Discovery Tent. Each encampment has a shower as well as a hugely popular hot tub and wood burning stoves for cooking.
