

Visiting the Tower

Disabled Access

Layer Marney Tower is an old building constructed long before access for the disabled was a consideration. Nowadays, we do our best to make the buildings and grounds accessible, but please understand that there are, for example, 100 steps to the top of the Tower.

We have commissioned an access report and are steadily working our way through the suggestions raised in it.

Every year we welcome many people with various disabilities to Layer Marney Tower who have a successful and enjoyable visit.

If you have particular requirements please telephone or email the office 01206 330784 info@layermarneytower.co.uk and we will endeavour to help you.
